**SEA Prime at SDC 2019 – Booth #1900 gets ready for the new Milano Malpensa Prime Terminal opening**

**SEA Prime, a SEA Group company, which with the Milano Prime brand is the sole manager of the Business and General Aviation infrastructures of Linate and Malpensa, closed 2018 posting a growth of 2.5% and a total of 26,000 movements. It was a year filled with successes, confirming the Company's leadership position on the Business and General Aviation market in Italy.**

**For 2019, SEA Prime is getting ready to launch an ambitious new project: the June opening of the new Terminal dedicated to Business & General Aviation in Milano Malpensa airport. It marks a concrete step towards the further expansion of the business, which will make it possible to consolidate and scale positions in the European ranking, where the Milan-based company currently enjoys a first place in Italy and fifth on the European Business & General Aviation market.**

**Milano Malpensa Prime, which already manages a 5,000 sqm hangar used to shelter the latest generation executive jets, will develop over a surface area of approximately 1,400 sqm in a dedicated area of the airport. The polyhedron, whose shape recalls that of a gem, is characterised by precious finishes for common areas and private lounges, designed to welcome passengers and crew as they arrive and depart, offering them a relaxed atmosphere, also thanks to the refined furnishings and lighting. Direct access, together**

**with dedicated security filters and controls, will complete the service.**

The recurring element of the restyling to be launched by **Milano Prime,** starting 2019, is precisely the gem: the perfect synthesis of contemporary luxury, territorial rooting and style becomes, in its essential result, a real symbol of luxury and the new “frontier” of General Aviation: a real gem nestled in the territory.

*“The opening of the new **Milano Malpensa Prime** Terminal is a great opportunity not only for our business, but for the entire territory where it is located. Together with Milano Linate Prime, at just 7 kilometres from the city centre, it will provide a second access route to the heart of northern Italy and Europe, with premium services offered directly or with our partners”* commented **Chiara Dorigotti**, General Manager of **SEA Prime**.

2019 will see the opening of new lounges at **Milano Linate Prime** too, the hub just 7 km outside the city centre: refined, elegant ambiances measuring a total of approximately 300 sqm, designed to offer passengers and crew alike complete relaxation and the utmost comfort right up until their flight departs. Infrastructural development and investments at **Milano Linate Prime** Terminal will also continue into 2020, with the construction of dedicated new hangars.

**29 JANUARY 2019**
