The *Airbus A220-300*offers an excellent flying experience with such benefits for passengers as wider seats, larger windows, more hand luggage space in the cabin, improved lavatories and much more. The new aircraft is also considerably quieter – with a four times smaller noise footprint. Moreover, at the moment it is the greenest commercial aircraft in the world, as it is the first aircraft to have a transparent declaration of the life-cycle environmental impact, helping to reduce CO2and NOXemissions by 20% and 50% respectively.

airBaltic this summer has also launched an improvedcabin with new, comfortable seats on its latest three *Airbus A220-300* aircraft. Passengers now benefit from such additional improvements as more legroom, new pockets behind the seats for magazines, as well as hangers next to the seat for jackets. All *airBaltic Airbus A220-300* aircraft will get the improved cabin.

*airBaltic*serves over 70 destinations from Riga, Tallinn and Vilnius, offering the largest variety of destinations and convenient connections via Riga to its network spanning Europe, Scandinavia, the CIS and the Middle East. For summer 2019, *airBaltic*has introduced three new destinations from Tallinn to Malaga, Brussels and Copenhagen. In addition, next summer *airBaltic*will launch a new direct route connecting Riga and Stuttgart.
