UTEK Flight School based in Bursa, Turkey acquired an ALSIM AL250. The AL250 simulator addresses initial phase training needs (PPL, CPL, IR/ME) and is SEP/MEP re-configurable simulator certified as an EASA FNPT II. In addition, it offers both classic and glass cockpit instrumentation for each flight model at the simple flick of a switch. This device has been extremely well received since its creation and more than 65 of these have already been installed (4 devices installed in Turkey) and are in successful operation worldwide.

Mr. Orhan Erkan GÜNGÖR, Chairman of the Board of UTEK Flight School, explains his choice: "As UTEK Flight School, we planned to expand our training fleet and after an evaluation, we preferred ALSIM. ALSIM is known for guaranteed quality, and with the flexibility of the ALSIM AL250 simulator, we can provide high-quality training to our students".

Nicolas FABRIES, Alsim's Sales Account Manager, is proud to welcome UTEK Flight School. "We would like to thank Orhan Erkan GÜNGÖR and his team for choosing ALSIM. We are very pleased to support a new flight school in Turkey and we are very much looking forward to a successful cooperation between our two companies."

UTEK Flight School is a general aviation company and a training center in Bursa, Turkey. The school operates in the heart of Turkey's industrial and commercial regions as its operation center is located just south of the Marmara Sea.For more information about UTEK Flight School, please visit: www.utek.aero/tr/
