B/E AEROSPACE ANNOUNCES SUPER FIRST CLASS SEATING AWARD INITIALLY VALUED AT $260 MILLION

News / Manufacturer

B/E Aerospace, Inc., the world's leading manufacturer of aircraft cabin interior products, today announced that the Company has been selected by a major international airline to outfit its new-buy wide-body aircraft with proprietary and unprecedented high-end super first class suites which will set a totally new standard for the first class travel experience. The deliveries are expected to begin in late 2017 and are initially valued in excess of **$260 million**.

The next-generation super first class suites will be designed with luxurious amenities, extraordinary comfort and living space while also providing enhanced privacy for the passenger.

"We are honored to have been selected for this major super first class seating program which further solidifies our partnership with one of the world's leading global airlines. Our super first class suites will provide the airline's first class passengers with unprecedented comfort and functionality," commented Amin J. Khoury, Executive Chairman of B/E Aerospace. "This award further strengthens our position as the leading provider of premium class aircraft cabin interior products."
