L-3 LINK CONTRACT AWARD FOR SPATIAL COMPOSITE SOLUTIONS

News / Manufacturer

L-3 Link UK and UAE based Spatial Composite Solutions have signed a long term agreement to supply the Full Flight Pilot Simulator sub modules for L-3 Link's Reality Seven Simulator manufacturing project.

The five-year agreement was signed by Nick Bendell, L-3 Link's operation director and Joseph McKeever - Spatial's CEO, and will result in Spatial supporting L-3 Link's commitment to provide training devices that deliver the lowest life cycle cost with the highest degrees of reliability.

"It's a great way to start the New Year," said McKeever. "This award recognises not only our design and manufacturing capability but also once again demonstrates Spatial's ability to win overseas contracts within the aviation training industry including current orders in the USA, Italy, India and Singapore. We look forward to 2016 with great confidence and self belief."
