- **Bombardier business jets best-suited for travelling in Greater China region offering customers a class-leading combination of range, speed, reliability and a smooth ride**

Bombardier Business Aircraft will showcase four of its leading business jets at the Asian Business Aviation Conference & Exhibition (ABACE) in Shanghai from April 17 to April 19, 2018. Making their debut at the show are the *Global 7000* mock-up and the luxurious Premier cabin on board the *Global 6000*business jet.

As part of an extensive world tour, the *Global 7000* mock-up is making its first appearance in China after successful stops in Dubai and Singapore earlier this year. The tour is an opportunity to demonstrate first-hand the *Global 7000* aircraft cabin. With four distinct living spaces and a full-sized crew suite, the *Global 7000* aircraft will be unique among business jets in spaciousness, luxurious comfort and highly personalized design flexibility. Its modern and multi-functional kitchen will feature unprecedented storage space, preparation area and amenities to deliver an exceptional in-flight dining experience.

"We are thrilled to have the show-stopping *Global 7000* mock-up at ABACE," said Khader Mattar, Vice President Sales, Middle East, Africa, Asia-Pacific and China, Bombardier Business Aircraft. "Feedback on this game-changing business jet has been nothing short of exceptional, and we are equally delighted to debut the Premier cabin aboard the *Global 6000*, which offers an elegant and skillfully crafted interior, further elevating the customer experience."

The Premier interior, available on *Global 5000* and *Global 6000* aircraft, blends contemporary design, luxurious materials and flawless craftsmanship with exceptional comfort, drawing inspiration from the superior comfort and productivity of the *Global 7000* aircraft cabin. It establishes a unifying aesthetic across Bombardier's *Global* family of aircraft.

Bombardier's *Challenger 350* aircraft and *Challenger 650* aircraft will also be on display, both of which lead in performance, comfort, reliability and technology, all while offering an exceptionally smooth and quiet ride. The best-selling *Challenger 350*business jet continued to dominate the super midsize segment and the medium aircraft category in 2017.
