EMBRAER LEGACY 500 BREAKS SPEED RECORDS

News / Business aviation, Events / Festivals, Manufacturer

Flying transoceanic, the **Embraer Legacy 500** has set two **speed records**, the Brazilian manufacturer announced on 18 November.

The midsize jet flew from Burbank, California to Kahului, Maui with five passengers in 6h. The segment – one of the world's longest between two points over water – covered 2,165nm (4,010km) with an average ground speed of 680km/h (367kt).

The easterly return flight covered 2,470nm in 5h 30min at an average ground speed of 846km/h.

Embraer Executive Jets has now set a total of six speed records this year, as confirmed by the US National Aeronautic Association and France's Federation Aeronautique Internationale.

The Legacy 500 has a a maximum range of 3,125nm.
