

RENEWED PARTNERSHIP: LIEBHERR-AEROSPACE AND SR TECHNICS

News / Maintenance / Trainings

Liebherr-Aerospace and SR Technics renew their partnership with a five-year global service contract. The partners work hand in hand to support a fleet of more than 500 aircraft operated by airlines around the world, including Airbus A320 Family and A330/A340 Family aircraft as well as Embraer E-Jets.

In the five-year global service agreement, Liebherr-Aerospace and SR Technics will provide services on air management systems and flight control systems to a global fleet of more than 500 aircraft; Liebherr from its facilities in Toulouse (France), Lindenberg (Germany) and its repair station in Singapore.

“The two companies have established a global framework agreement covering MRO services, with a special focus on Europe and Asia.” explains Frank Steinmaier, Head of Sales & Marketing EUMEA, Customer Service, at Liebherr-Aerospace Lindenberg GmbH. “The agreement is just another step to strengthen the already more than a decade old successful relationship between SR Technics and Liebherr.”

“It is always a pleasure to continue working with partners with whom we have a long history of trust and successful commercial outcomes,” comments Konrad Gysel, Head of Strategic Procurement at SR Technics. “Several operators will be serviced at strategic locations in Europa and Asia as a result of this renewal. In parallel to these MRO activities, we have set up a material purchase agreement and technical publication license agreement with Liebherr-Aerospace to support SR Technics engineering and MRO capabilities. This contract is indicative of the collaborative and trusting relationship between our two companies.”

Liebherr-Aerospace is a leading supplier of systems for the aviation industry

Liebherr-Aerospace & Transportation SAS, Toulouse (France), is one of eleven divisional control companies within the Liebherr Group and coordinates all activities in the aerospace and transportation systems sectors.

Liebherr-Aerospace is a leading supplier of systems for the aviation industry and has more than five decades of experience in this field. The range of aviation equipment produced by Liebherr for the civil and military sectors includes flight control and actuation systems, gears and gearboxes, landing gear and air management systems as well as electronics. These systems are deployed in wide-bodied aircraft, single aisle and regional aircraft, business jets, combat aircraft, military transporters, military training aircraft, civil helicopters and combat helicopters.

SR Technics is a world leading MRO service provider for the civil aviation sector.

The SR Technics Group offers its customer airlines comprehensive and totally-tailored solutions for the technical support and management of their aircraft fleets, engines and components. This is coupled with extensive engineering know-how, 24/7 worldwide component availability and broad technical training offerings. With its head office at Zurich Airport, SR Technics provides its services to about 500 airline customers through an extensive network of international operations and sales offices in Europe, America, Asia and the Middle East.
