

SOUTH AFRICAN AVIATION PILOT TRAINING INVESTS IN ALSIM'S AL250

News / Maintenance / Trainings

Alsim is pleased to announce the sale of an [AL250](#) to [Aviation Pilot Training](#), a flight school located in Cape Town, South Africa. The device will be delivered in the first quarter of 2019.

The AL250 contains the best, state-of-the-art technology and is EASA-FNPT II (Flight Navigation Procedures Trainer) certified. It addresses initial phase training needs (PPL, CPL, IR/ME) and is SEP/MEP re-configurable. In addition, it offers both classic and glass cockpit instrumentation for each flight model at the simple flick of a switch.

Mr Ari Kraak, Aviation Pilot Training Director, explains why they chose Alsim's AL250: "We are very excited about the product, after researching most simulators worldwide we found that the AL250 is the perfect device for our facility. The service from Alsim and their willingness to adapt the product to our needs was second to none. It's a clean state of the art device that will attract clients from all parts of the world. We are looking forward to receiving the product and a great long-term relationship with Alsim."

Mrs Audrey Jeffroy, Alsim Sales Director and Mr Nicolas de Lassus, Alsim Sales Account

Manager, emphasize: “We are very excited to welcome a new customer in South Africa and in particular in Cape Town. The city is very attractive and students are coming from all over the world to do their flight training there. APT is a leading flight school. Adding an AL250 flight simulator will enable them to provide high-quality training not only to focus on the South African market but also internationally as it meets EASA and FAA standards. We now have 5 customers in South Africa, some of them for almost 15 years, proving we are well established in this region”.

About Aviation Pilot Training

Aviation Pilot Training is based in the heart of South Africa’s most beautiful city of Cape Town: a state-of-the-art training facility that offers the highest quality of helicopter and airplane training. APT trains pilots of all levels, from beginners to experienced professionals. The courses they provide facilitate ab initio, advanced training, specialty courses, type conversions and full Private, Commercial and Airline Transport Pilot licenses.

Aviation Pilot Training offers both full-time and part-time courses, tailored to fit its students’ schedule, time frame and budget. APT operates 7 days a week, ensuring the student maximizes every second he/she has to fly.

APT has a full-time maintenance facility, enabling students to have hands-on access to the school’s aircraft during their learning process. Compared to the photos and models used in typical classroom environments, this method results in unparalleled development of conceptual understanding.
