

3,000TH CESSNA CARAVAN FAMILY AIRCRAFT JOINS AZUL CONECTA AIRLINE FLEET IN BRAZIL

News / Airlines, Manufacturer

Brazilian Azul Conecta took delivery of a Cessna Grand Caravan EX. This aircraft represents the 3,000th Cessna Caravan family turboprop delivered worldwide, reinforcing the Caravan as the most popular utility turboprop in the world. Azul Conecta transports travelers from smaller cities and remote locations throughout Brazil. Textron Aviation employees and representatives from Azul Conecta celebrated this significant milestone with a special delivery ceremony at Textron Aviation's location in Independence, Kansas.

Lannie O'Bannion, senior vice president of Sales and Flight Operations at Textron Aviation, commented: "The Cessna Caravan's versatility and reliability have made it the most popular aircraft in the utility turboprop category, with now 3,000 delivered globally. I'm thankful to customers like Azul Conecta who continuously rely on the Caravan family of aircraft to fulfill their missions, deliver solutions and improve lives around the world."

Flavio Costa, chief technical officer of Azul and president of Azul Conecta, said: "This Grand

Caravan EX will proudly fly the Brazilian skies and connect our 158 destinations, many of which are made possible by the aircraft's utility and flexibility. As a longtime Textron Aviation customer with a fleet of over 25 Cessna aircraft, we are happy to be a part of this important milestone."

Conceived as a rugged utility aircraft with low operating costs, the Caravan was designed for use in remote areas with extreme weather changes, mountainous terrain and rough landing conditions. The aircraft's versatility became renowned in all corners of the world, and the Caravan continues to see wide use in global markets by a variety of customers, including government agencies, law enforcement and militaries, air ambulance operators, freight haulers, corporations and humanitarian organizations. Customers can choose between four models of the Cessna Caravan aircraft to best fit their mission: the Caravan 208, the Grand Caravan EX 208B, the Caravan Amphibian and the Grand Caravan EX Amphibian.

Cessna Caravan program milestones

- 1981 Cessna launched the Caravan program
- 1982 First flight of Caravan 208 prototype
- 1984 Caravan 208 received FAA type certification
